**For Immediate Release**

## 160<sup>th</sup> Airborne Selects iFly GPS™

McKinney, TX – July 1, 2019 – Adventure Pilot announces the selection of iFly GPS by the 160<sup>th</sup> Special Operations Aviation Regiment. iFly GPS' unmatched cockpit usability in turbulent conditions, ability to integrate with a wide variety of devices and true cross-platform functionality were the driving factors in the selection.

The 160<sup>th</sup> Airborne mission is to organize, equip, train, resource and employ Army special operations aviation forces worldwide in support of contingency mission and combatant commanders. Known as the Night Stalkers, these Soldiers are recognized for their proficiency in nighttime operations. They are highly trained and ready to accomplish the very toughest mission in all environments, anywhere in the world, day or night, with unparalleled precision. They employ highly modified Chinook, Black Hawk and assault and attack configurations of Little Bird helicopters.

Adventure Pilot is honored to provide EFB solutions to the Night Stalkers.

### **About Adventure Pilot**

iFly GPS™ is the creation of Adventure Pilot and offers powerful navigation solutions that go far beyond the imagination while keeping it simple and intuitive. The App is a game-changing EFB that provides navigation and flight planning solution designed for any mobile device (Android, Apple and Windows) and has exhaustive support of AHRS and ADS-B Traffic & Weather devices.
